### SALE BROADCAST LIVE ON

Live Auction – Watch & bid online • [www.DVAuction.com](http://www.DVAuction.com)  
You must register to bid online prior to the sale.

### ABSENTEE BUYERS

If you cannot attend the sale, but are interested in buying cattle, your bids will be handled in a confidential manner.  
Cattle on order will satisfy the new owners, 100%. WE GUARANTEE IT!

### TRANSPORTATION & FEEDING

Transportation and/or feeding arrangements for purchased cattle will be made at the buyer's convenience. We would like all the females to be taken home sale day, due to them being very close to calving.

### GUARANTEE

All cattle sell under the standard  
North American Limousin Foundation guarantee.

### EPDs

EPDs are dated 2-10-20.

### VET WORK

Golden Valley Vet Clinic, Park River, ND  
Dr. Nathan Kjelland, DVM, 701-284-6070

**[5% Discount to Anyone Buying Five Head or More]**

# Welcome,

We appreciate everyone taking the time to study our 2020 "Genetics for the Future" sale offering. This year marks our 25th year marketing seedstock through a production sale. We would like to thank all of you, our loyal customers, for the support throughout the years. Without you none of this would be possible.

Our cattle are bred to have an abundance of volume, fleshing ability and muscle shape the Limousin breed is known for, structural soundness and most importantly, a good disposition. We would welcome anyone to come and see the cows these bulls and heifers are out of, because we believe it all starts with a good mother cow.

The sale will once again be broadcast live on DVAuction. We will be offering \$50 off of all bulls taken home sale day. We would also ask that the heifers be taken home the day of the sale or arrangements made with us to get them delivered as soon as possible, as they will be very close to calving. We highly recommend anyone who does not take their animal's home sale day to look into purchasing insurance on them.

If you have any questions about the offering or would like to see the cattle in person before the sale, you are always welcome to call or stop by for a visit.

*A very sincere thank you from Vaughn Farms Limousin.*

Tom & Rita Vaughn  
David, Brittany, Wyatt, Remington & Hope Vaughn

### Retaining 1/3 semen interest.

We have been fortunate enough to raise and merchandise bulls that have gone on to become leading AI sires and breeding forces in the Limousin breed. We feel TOMV Gatorade 9191G is one of those bulls. His sire, HUNT Credentials, is one of the hottest purebred A.I. sires in the business and is known for stamping them with a balanced look, growth, performance and carcass merit. As a bonus, his dam is one of our best cows most notably producing the A.I. sire, TOMV Diesel 619D. What makes Gatorade unique, aside from his clear visual advantages, is this homozygous polled sire is a true outlier from a carcass standpoint. Note, he scanned a 17.0 sq. in ribeye and posted a marbling ratio of 116. Bottom line, this is a herd sire prospect that projects to add calving-ease, maintain growth, enhance scrotal, produce good milking daughters and sire cattle with outstanding carcass quality. Bid with confidence.

**TOMV DIESEL 619D** • Maternal brother to Lot 1

**CRVL CLASSIC**  
Maternal brother of Lot 3

Sired by the known performance and muscle leader, TOMV Diesel 619D, here is an outstanding homozygous polled, herd-sire prospect who sets the bar high in terms of real-world growth, milk and ribeye area. Not only is he square hipped and stout, he stands on well-constructed feet and legs and has plenty of middle and body dimension. What's more, he is backed by a tremendous cow family that traces back to the known calving-ease A.I. sire, Wulfs Ransom 3059R.

If you are looking to raise them with an abundance of muscle, ample body capacity and huge amounts of growth without sacrificing milk, then study this major league sire prospect. He is all of that, and more. He ranks in the top 1% of the entire breed for both milk, calving-ease maternal and top 4% for ribeye.

TOMV GMC 9115G has genetics that excel for five of the most important traits in the cattle business—growth, milk, scrotal, docility and mainstream terminal index. Being a total outcross to much of today's popular lineages adds an element of breeding versatility that's hard to come by. Note, he posts more than 900 pounds of weaning weight and more than 1,500 pounds of yearling weight. He projects to produce heavy weight calves that'll be in high demand next fall.

Up next is this outstanding son of GV Austin 701A who combines rib and muscle to the highest degree. Visually, he is stout, sound and has as much rear flank as anything in the sale. We expect his progeny to be at the top of many contemporary groups in terms of growth performance. Don't miss him March 17.

If you are needing a couple of bulls March 17, may we suggest these homozygous polled half brothers. They both carry genetics for increased levels of growth, maternal traits and ribeye area. Phenotypically these sons of JYF Zeek 151Z carry that true natural muscle shape that helped popularize the breed many years ago. Take a study on this exceptional pair of herd-sire prospects.

DLVL Gentleman 977G is not only balanced in real life, he is balanced on paper as well. Note, he is highlighted by top 35% figures in these industry relevant traits—yearling weight, milk, docility and ribeye. We expect to hear more positive news from this homozygous polled herd sire on down the road.

Here is a TMCK Cash Flow son who projects to produce calves who will mash down the scales with the best of them. He is homozygous polled, carry's top 10% growth traits, posted a high scrotal figure and a staggering ribeye figure just north of 18 sq. in. Here's one that projects to be on several short lists sale day.

10

## THE FEED THAT PAYS YOU BACK

Developing yearling bulls takes good management and a properly formulated ration. Bull Challenger, a complete feed for developing bulls will ensure that your bulls express their genetic potential while keeping them structurally sound. Bull Challenger has the right balance of protein, energy, and minerals and comes in a complete pellet so that bulls can't sort out grain from roughage.

For more information about Bull Challenger, contact us.

A photograph of a herd of cattle, primarily brown and black, standing in a grassy field. The cattle are of various breeds, including some with large, muscular builds. The background shows a line of trees under a clear sky.

# Bred Heifers

## LOTS 43A—49B

It is with both pride and some sadness that we present this year's bred heifers. The traits that make us proud of these females are the very same ones that make us sad to see them go.

Given their lineage, we believe these bred heifers have what it takes to be productive in a variety of environments. These females are the result of 37 years of breeding and selection for the traits necessary to stand the test of time in the cattle business. They were selected based on a combination of quality and numbers and are bred for the long haul.

Females at our place are never pampered, and are always expected to bring in either a replacement quality heifer calf or a bull calf worthy of making it into our annual sale. Rest assured, we have spent a lot of time sorting, culling and discussing to bring you the best we have to offer.

We hate to see them go, but are excited to see the long-lasting contribution they will make for their new owners.
